

# Vena, RVNA and Deltek

## A powerful combination of FP&A and project planning solutions for Deltek customers

### Better budgeting, planning & forecasting with Deltek

You've already made major investments in your data and technologies – from Deltek to all your Excel templates, models and reports. Maximize your return on those investments by integrating your software systems, uncovering the insights behind your numbers and driving more timely, data-driven business decisions.

Take the next step today with Vena's FP&A software, integrated with Deltek and supported by the veteran Deltek experts at RVNA. Combining the companies' solutions and expertise, you'll be able to keep using your favorite spreadsheet and ERP software to:

- create stunning, personalized dashboard reports with financials and KPIs updated in real time
- perform variance, profitability and other analyses, on an ad hoc basis with real-time actuals
- connect data between your GL, budgets and reports without copying and pasting to Excel

**Leverage your existing Excel models and templates for maximum adoption**

“(With Deltek and Vena) we were able to cut our month-end reporting from 15 days after the close to a single business day...It's like getting a Ferrari for the price of a Cadillac!”

**- Dominic Di Bernardo**  
Chief Business Intelligence Officer  
Cumming Corporation

### VENA - THE BENEFITS

#### Best in Class BP&F

Plan for any possible scenario  
Make better, faster decisions
